

The Asphalt Report

June 28, 2011

Cleaner Water With Asphalt!

Asphalt pavements can be excellent tools in improving water quality, says a new white paper from the Asphalt Pavement Alliance. Because asphalt is impervious to water as well as many other substances, it has been beneficially used by humans for thousands of years. Noah waterproofed the Ark with asphalt. Deposits of asphalt on the Pacific coast near Santa Barbara were used by native Americans to make their canoes waterproof. But, can today's asphalt pavements really provide cleaner water? Download the publication and find out!

This is "The Asphalt Report", bringing you the most up-to-date information on the design, construction and maintenance of asphalt pavements. This report highlights the many benefits of asphalt pavements in terms of Engineering, Economics, and Environmental Sustainability. We hope you find this information helpful.

The Asphalt Pavement Alliance (APA) has developed a new web site full of useful information for agency personnel, consultants, contractors, policy makers and the general public. The information on the site is organized into the general subject areas of Economics, Environment, Engineering, and Policy. The new website is www.AsphaltRoads.org
