

Asphalt is constantly innovating.

Modern roads take full advantage of scientific and engineering innovations. Through education, research, and applied knowledge, the asphalt industry delivers the best performance and cutting-edge innovation for today, tomorrow and into the future.

TODAY

Since 1986, the asphalt industry has invested over **\$30M** in product research.

777% growth in WMA usage from 2009–2017.¹

When it comes to **innovation**

ASPHALT PERFORMS

TOMORROW

+2,200 students have been awarded industry scholarships, totaling

\$5.1M in scholarships granted since 1994.²

FUTURE

Visionary engineers are developing asphalt mixes to meet the needs of future cities.³

8M autonomous vehicles expected to be on the road by 2025 to "see" asphalt roadways.⁴
