Modern roads take full advantage of scientific and engineering innovations. Through education, research, and applied knowledge, the asphalt industry delivers the best performance and cutting-edge innovation for today, tomorrow and into the future.

**TODAY**

Since 1986, the asphalt industry has invested over $30M in product research.

**TOMORROW**

+ 2,200 students have been awarded industry scholarships, totaling more than $5.1M in scholarships granted since 1994.

**FUTURE**

Visionary engineers are developing asphalt mixes to meet the needs of future cities.

8 M autonomous vehicles expected to be on the road by 2025 to “see” asphalt roadways.
