

HMA Ultra-Thin THINLAY SAFE. SMOOTH. DURABLE.

High Value Pavement Enhancement

- Extends Pavement Life
- Protects the Pavement Structure
- Restores Pavement Smoothness

HMA Ultra-Thin 3/4" - 1"
Over existing asphalt pavement

- VS -

Typical Surface Treatment 3/16" - 3/8"
Over existing asphalt pavement

HMA Ultra-Thin

High Value Pavement Enhancement

RECOMMENDED APPLICATION

Preventive Maintenance Treatments Cost Comparison

Treatment	\$/syd **	Cost/mile (24' wide)	Life extension range* (years)	Life extension range* average (years)	Cost/mile per year
Chip Seal-Double	\$3.13	\$44,069	3-5	4	\$11,017
Micro-Surface	\$3.06	\$43,083	3-5	4	\$10,771
Ultra-Thin Low	\$2.97	\$41,816	5-9*	7*	\$ 5,974
Ultra-Thin Medium	\$3.57	\$50,264	5-9*	7*	\$ 7,181
Ultra-Thin High	\$4.02	\$56,599	5-9*	7*	\$ 8,086

* Average Life Extension estimated by APAM

** Unit Prices based on Weighted bid prices from last 12 MDOT lettings (thru August 2020)

- PASER rating of 4, 5 or 6
- Structurally sound pavement
- Moderate cracking < 1/2" wide
- Aged, oxidized or low skid resistance pavements

BENEFITS

- 5-9 year life extension
- Seals pavement to delay further deterioration
- Improve ride quality
- Can improve skid resistance
- Maintain existing gutter pan
- Minimize or eliminate structure adjustments
- Reduce noise
- Improve drainage
- Ease of construction, standard paving operation
- Minimal construction time
